

## Historic Vessels Timber Deck Survey 2018

We are currently undertaking a survey into the type of timber decks which exist on surviving historic vessels worldwide, the materials and method used in their construction and their longevity. The results of this survey will inform other historic vessel owners and help with conservation planning. To take part, please complete the form below:

Vessel name & Type	
Vessel owner / custodian	
Key contact	
Email address / Telephone	
Operational / Static Vessel	
Vessel location	
Type of deck (e.g. traditional / modern)	
Type of timber used	
Caulking method	
Year Laid	
Who laid the deck	
Timber source and ease of procurement	
Previous deck type (if applicable)	

Maintenance routine	
Problems identified (if applicable)	
General comment	

Please indicate if you are happy for your feedback to be shared with other historic vessel owners on an individual basis: Yes / No

Please indicate if you are happy for your feedback to be published on the NHS-UK website as part of this survey: Yes/No

Please indicate any answers you wish to remain confidential:

.....

Thank you for completing this survey. Please return your form by Monday 04 February 2019 to [info@nationalhistoricships.org.uk](mailto:info@nationalhistoricships.org.uk) or post to:

Emerald Laing, Office Administrator  
National Historic Ships UK  
Park Row  
Greenwich  
SE10 9NF

Once the survey is complete, you will receive a copy of our published written summary for your records.

*Please note that any data supplied within this form may be held by National Historic Ships UK in perpetuity for archival and research purposes.*
